

## RsLogix 500 – Printing

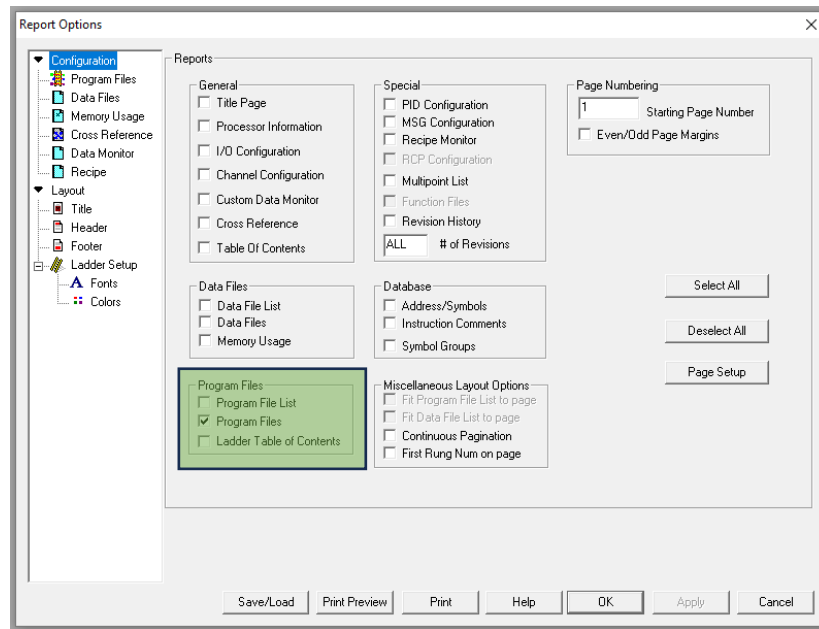

- 1) In order to get a copy of your ladder logic for your lab or your notes, you first need to adjust what is printed. By default, a full report that is about 12 pages is created. But we only want the program and nothing else. To limit the report, first go to **File** and then **Report Options**.

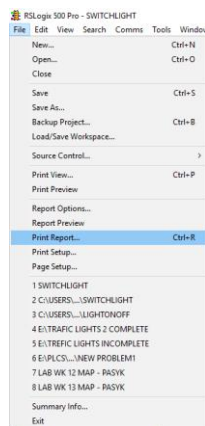

- 2) This will bring up the Report Options window. Every item checked will be added to the report. Start by pressing Deselect All so all the checkboxes are cleared.

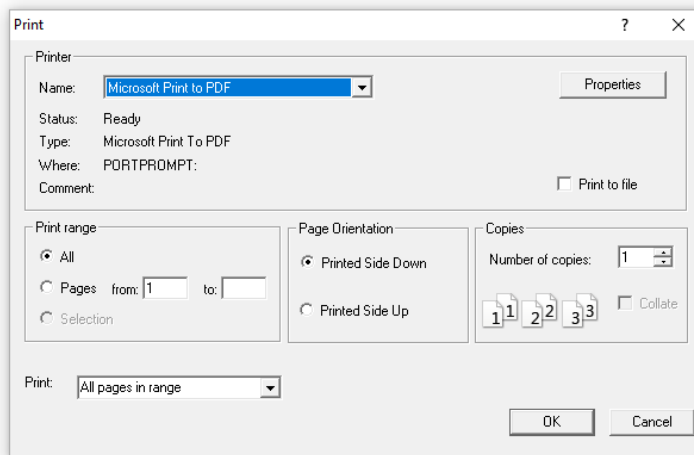

3) Select **Program Files** under the Program Files group.

4) Now you can print your program. But instead of sending to a printer, you will save it to a PDF file and save it on a flash drive or Email it to yourself. You start like you would normally print a file. You select the file pull down menu and select

- 5) This will bring up the familiar print window. But the printer will be **Microsoft Print to PDF**.

- 6) Just select the name of your file and where you want to save it. This file will be put on a flash drive or emailed to yourself.
